

NY Tax Shock: Change in Out-Migration by Destination's Previous Migrants' Income

NY-origin county-pairs; avg. post-shock flows (2021–2022) vs. pre-shock baseline (2020)

Binscatter. Y-axis: $(\text{avg. 2020–2021 label flow} / \text{2019 label flow}) - 1$; zero = no change (red dashed).

X-axis: wealth of people moving from NY to each destination in the pre-shock year.

Destinations attracting wealthier NY migrants before the shock are on the right.
