

NJ Tax Shock: Change in Out-Migration by Destination's Previous Migrants' Income

NJ-origin county-pairs; avg. post-shock flows (2018–2019) vs. pre-shock baseline (2017)

Proportional Change in Migration Flow After NJ Tax Hike

Log Per-Capita AGI of Migrants to Destination (2016 pre-shock baseline)

Binscatter. Y-axis: $(\text{avg. 2017–2018 label flow} / \text{2016 label flow}) - 1$; zero = no change (red dashed).

X-axis: wealth of people moving from NJ to each destination in the pre-shock year.

Destinations attracting wealthier NJ migrants before the shock are on the right.
